

EDINMORE CONTRACTS LTD

Building Insurance Repair and Maintenance Contractor

Professional • Quality • Caring

Environmental Policy Statement

Edinmore Contracts Ltd act as Principal Contractor for Building Insurance maintenance and repair services to the Insurance and Loss Adjusting industry. We recognise that we have a responsibility for protecting the environment, preventing pollution, and continually improving our environmental performance, taking a life cycle approach through setting the following objectives:

1. Meeting and exceeding environmental legislation and other requirements relating to our operations;
2. Implementing and maintaining an Environmental Management System meeting the requirements of ISO14001:2015;
3. Protecting the environment using a life cycle approach, including:
 - Raising employee competence
 - proactive stakeholder engagement,
 - sustainable procurement
4. Improving resource efficiency and preventing pollution through:
 - reducing water consumption;
 - reducing gas consumption;
 - reducing electricity consumption;
 - reducing CO2 emissions from our Fleet;
 - reducing our waste and increasing our recycling;
 - zero environmental incidents;
 - conducting environmental audits to comply with ISO14001:2015.
5. Raising awareness through the provision of training to our employees and those working on our behalf and proactively engaging with interested parties.

This policy will be reviewed annually and all employees, subcontractors and persons working on our behalf will be made aware of our commitments by making this policy available to them. The environmental policy will be made available to other external interested parties on request. It can also be found on our website www.edinmoreltd.co.uk.
